Design and functionality that take bowler interaction and the on-lane experience to the next level.

Conqueror Universal
Get the power of Conqueror Pro and its modules without changing your scoring system.

Solutions
Complete marketing and training programs designed to add a third dimension to your business.

On-Lane Redemption
Add a new revenue stream by spurring customers to play more and spend more.

Monitors
AccuVision LED monitors designed to dazzle and delight your players.

BES X | Redefine the bowling experience Grow your business

Did you know?

Most people go bowling because they like to:

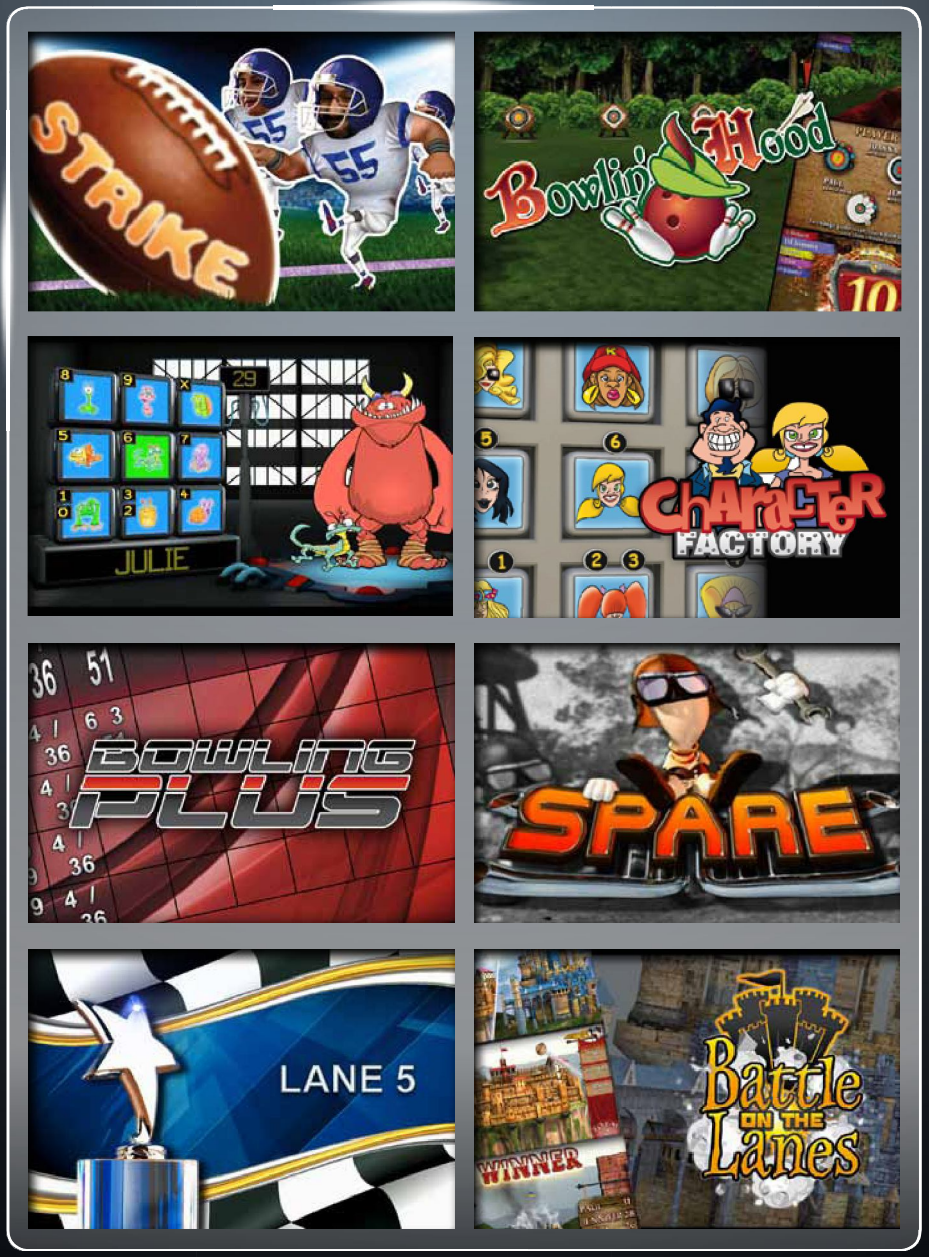

- Have fun
- Compete
- Relax
- Socialize

How powerful would it be if you were able to maximize every element of the bowling experience—to get more customers, increase their visit frequency, lineage and revenue?

Unlike any other automatic scoring system, BES X, the new Bowler Entertainment System has been designed to take every aspect of what makes bowling appealing to people, to the next level... BES X delivers more fun, more ways to socialize and more competitive excitement—while making it easier, more comfortable and more relaxing for people of all ages.

BES X redefines the bowling experience by giving today's customers what they want.

BES X | Redefine the bowling experience Grow your business

EXtreme fun for everyone

Having fun is the most important reason that brings people to bowling and entertainment centers.

From engaging graphical environments to new and exciting, cutting-edge game formats, BES X ignites all your customer segments with fun designed specifically for each of them.

- *Exclusive* NEW Mad Games - Shorter, easier, more fun and more profitable
- *Exclusive* NEW YouToons - Watch your customers come to life and keep them engaged
- *Exclusive* Themed Birthday Parties - Celebrate more profitable days
- *Exclusive* The largest selection of on-demand environments, games and game formats - So much to offer, your bowlers may never leave

EXciting competitive play

The competitive element is a key component of the bowling experience.

Young or old. Expert or novice. Everyone likes to win. With a wide variety of features, thrilling games and environments offered nowhere else, BES X enhances competitive play at any level—fun or sport.

- *Exclusive* NEW Bowling Plus - Displays the top moments of the game, as it's happening
- *Exclusive* NEW Score Assist - Helps bowlers improve their skills by familiarizing them with how to score the game
- *Exclusive* NEW Adaptive Skill Level Games - Bowlers can choose their skill level, keeping the competition fair and exciting for everyone
- *Exclusive* NEW Skill Games - Two new shorter games with a simpler score calculation, still offering that competitive challenge
- *Exclusive* NEW On-Lane Live Statistics - Allows bowlers to review game statics on-lane, live and on-demand
- *Exclusive* Largest Selection of Classic Games, plus two NEW! - A complete set of eight classic variations on the traditional game
- *Exclusive* NEW Complete Tournament Support - You won't believe how smooth and easy tournaments will be for you and your staff

BES X | Redefine the bowling experience Grow your business

EXtended social reach

People go bowling to socialize, but traditional scoring systems don't allow them to extend their reach beyond the lanes. Let them share their experience with their social network and socialize with other people in the center, and you've made a "friend" for life.

BES X provides exciting ways for your customers to socialize with their on-lane companions, and "share" their experience.

- *Exclusive* NEW Facebook® GameConnect - Put players in touch with their "friends", right from the lanes
- *Exclusive* NEW Lane Chatter - Allows bowlers to chat and text with other lanes, right from the LCD bowler console

An eXceptionally easy, comfortable and relaxing on-lane experience

It's simple. People bowl because the experience is enjoyable, relaxing and worry-free. And they don't bowl when it isn't. That's why we made sure BES X is the easiest and smartest system in the world to interact with, slashing the time customers spend trying to figure things out, and helping them stay focused on the game.

- *Exclusive* NEW Virtual Waiter- Allows customers to order F&B from the lane through a video call on the LCD bowler console
- *Exclusive* NEW Video Intercom- The world's first video call system available on a bowling lane
- *Exclusive* NEW SuperTouch LCD Console - Designed for extreme ease of use and offer a look and feel like you'll find on the latest tablets and smartphones
- *Exclusive* NEW EasyKey Keyboard Console - Clean and simple keyboards with intuitive navigation, so only the relevant keys light up
- *Exclusive* NEW LED Color Effects Lighting - Consoles project colors on the pedestal and surrounding floor, creating a fabulous effect in your center
- *Exclusive* NEW Extend the Bowling Session from the Lane - Automatically prompt customers at the end of the game to extend their prepaid session, without leaving the lane
- *Exclusive* NEW HD Signature Welcome Screens - As soon as the lane is opened, BES X displays all the information bowlers need to get to the right place

BES X MARKETING KITS

Unleash eXtreme marketing power

Attracting players has never been so simple

Growing your business and competing with all the consumer entertainment options is a big challenge. To succeed, centers like yours must continually reach out to attract and re-engage customers, while constantly improving the bowling experience itself.

BES X ready-made marketing kits

Colorful, powerful—and the first of their kind in the bowling industry, BES X Marketing Kits have everything you need to attract players, providing a simple yet comprehensive way to—

- Quickly launch exciting new marketing programs
- Target, reach and motivate all customer types
- Promote the great experience awaiting them with BES X
- Consistently communicate with customers—inside and outside your center
- Elevate the image of your center with ads, videos, web showcases and more
- Edge out the competition

All kinds of tools, for every kind of customer

BES X comes with six marketing kits to promote the arrival of the system and target all major consumer groups:

- BES X: Coming Soon Kit
- Kids and Birthday Parties
- Teens and Young Adults
- Corporate and Group Events
- Competitive Play
- Family Fun

BES X Marketing Kits help you grow your business by reaching out to more customer segments—for more revenue and profits.

Each of the six marketing kits includes:

- How-To Promote Guides: Marketing ideas to make the most of your new system to a specific target audience
- Animated and static ads for MMS in-center monitors and LCD bowler consoles
- In-center posters and banners
- Point-of-sale displays
- Print ads
- A plug-and-play showcase to promote BES X on your website
- Email campaigns
- Press releases
- Flyer templates
- Phone messages/DJ greetings
- Radio campaign language

The world's most scalable, upgradeable and fully integrated bowling center management system

Running a bowling center or Family Entertainment Center (FEC) can be incredibly complex. To be successful you need visibility into your entire operation, and the tools to take control. You need Conqueror Pro from QubicaAMF.

Conqueror Pro gives you total control—from security to pricing to lane control. You can control every aspect of your business, even when you're not there. It lets you recognize and reward your bowlers, simplify transactions and reduce wait time. But most important, it empowers you to build customer relationships, and your business.

Total Integration
From lanes to employees, remote center management to customized setup, all Conqueror Pro modules are fully integrated so you can deliver a complete non-stop bowling experience to your customers—with total peace of mind.

Seamless Point of Sale (POS) Transactions
Conqueror Pro's POS is fully PA-DSS compliant, an industry-exclusive, has a user-friendly interface and total integration to ensure customers can enjoy attractions across your entire center with a single bill at checkout—making it easier for them to spend more in your facility.

Frequent Bowler Tracker (FBT)
Conqueror Pro tracks and reports purchases and play habits, offering a powerful tool to build profitable customer relationships. Plus, features like gift card and member point collection management help reward loyalty and promote repeat visits.

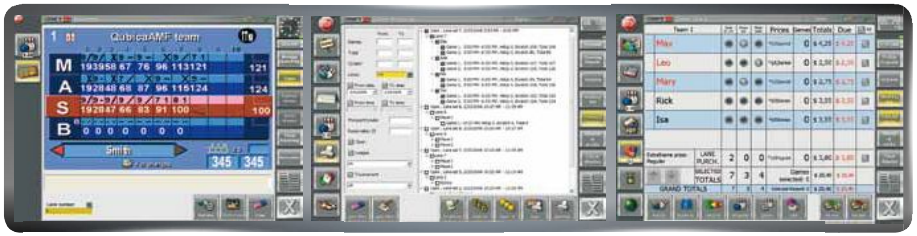

Advanced Reservations
Through real-time interaction with lanes, local and web, plus the ability to manage deposits and payments, our fully integrated electronic booking system gives you the power to maximize lane usage—and profits.

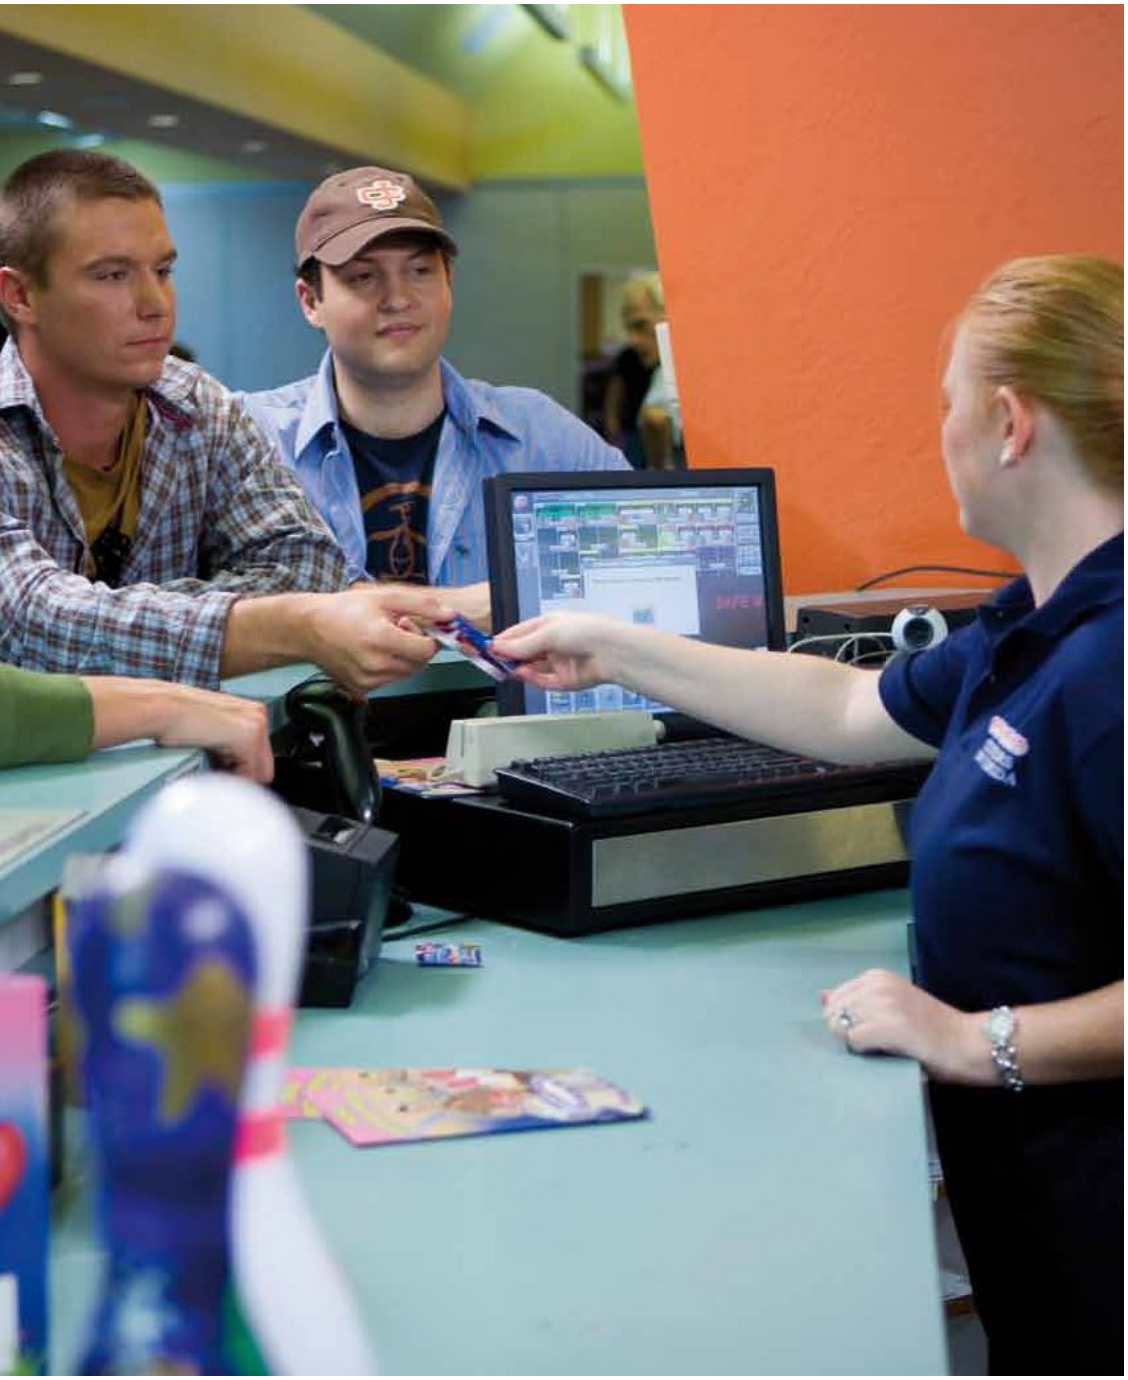

Lane Control
Our Lane Management module talks to your reservation system, waiting list, POS and more. So you'll see the full status of your center at a glance—and have complete control at your fingertips.

Bowling Modes and Dynamic Pricing
Stop worrying if your staff is offering the right promotion at the right time. Conqueror Pro lets you link price keys and lane options to specific times or days of the week, and present unique deals for holidays and special events.

Automatic Internet Updates
An industry-first, Conqueror Pro can ensure your modules are running all the latest enhancements by downloading updates right off the internet. It's one less thing for you to worry about.

Remote Center Management
Another Conqueror Pro exclusive. Manage your center even when you're not there—with Conqueror Remote, which gives you secure system access through any internet connection.

Build a more profitable future with your existing scoring system

Want to harness the power and potential of Conqueror Pro without changing your existing scoring system? You can with Conqueror Universal. It's a great step toward modernizing your center. And it's an investment that stays with you as you grow. Total security and control to run your business the way you want to.

Conqueror Universal provides many of the same modules as Conqueror Pro, like—

- POS Seamless Transaction
- Frequent Bowler Tracker
- Advanced Reservations
- Bowling Modes and Dynamic Pricing
- Automatic Internet Updates
- Remote Control and Configuration

Plus, Conqueror Universal offers these great benefits:

Compatible With Legacy Scoring Systems

Conqueror Universal is compatible with many legacy scoring systems, including BOSS, AccuScore XL, AccuScore Plus and Brunswick FrameWorx. No other system offers such wide compatibility.

Multi-Center Functionality

If you're a multi-unit operator working with a variety of scoring, management and POS systems, Conqueror Universal lets you use the same management system across your entire organization. Your headaches will subside, and your operational efficiency will soar.

Celebrate More Profitable Days

Exclusive **Themed Birthday Parties**
Every bowling center owner knows birthday parties are huge money-makers. And BES X Themed Birthday Parties are one of the best ways to capitalize on this opportunity.

Let your bowlers choose from three themed birthday parties all featuring dedicated graphical environments and games to best suit their celebration.

Themed Birthday Party Environments:
- Prehistorica
- Fairy Tales
- Oceano
- Plus, BES X Birthday

We also offer specific themed birthday training and marketing kits including table sets, fun boxes, posters, parent's guide, promotional birthday elements and more, to set your center apart and offer the best birthday parties available in the industry. Kids and their friends will love the party at your center. Parents will enjoy how easy it is to host a great party. And everyone will want to come back.

Start growing your business today

QubicaAMF Marketing and Training Programs add greater appeal to your center, building stronger relationships with current customers while attracting new ones. They generate results, increase ROI, and start doing both the day you bring them online in your center.

Rewarding customers for their loyalty is one of the best ways to keep them coming back. And Players Club lets you do exactly that. A complete loyalty program, Players Club allows you to offer points customers can redeem for Play Cash, Gift Cards or themed merchandise in your center.

Program includes:

- QubicaAMF marketing training and support
- Center Marketing Kit with posters, table tents, direct mail and more
- Players Club Cards and Merchandising Kit
- Website Showcase

Save them time and give your customers what they want: anytime, anywhere convenience. Integrated with your existing web site, the Web Reservations Solution lets you book, collect payment and drive promotions all online, 24/7, 365 days a year.

Program includes:

- QubicaAMF marketing training and support
- Center Marketing Kit with posters, table tents, direct mail and more
- Manager's Training and Procedures Manual
- Website Showcase

Communicate with your customers and improve their experience, automatically

During busy times, customers are added to the waiting list, but they're unsure when it is their turn bowl. Your pricing menus are complicated and a nightmare to update. Creating appealing in-center promotions is a difficult and time consuming task.

We have the solution. The Multi-Media System solves the most important problems related to in-center communication, information display and management that can't be met by any alternative.

Easily communicate with your customers, automatically

Easily show content, automatically, so you have more time to focus on other aspects of your business and are sure the information you want to display will get noticed.

Various display options including static and animated advertising, videos, promotions and TV with sound. In-center monitors make it easier for you to market your business more effectively.

Easy to set up from your front desk system. Create endless ads, display waiting list or pricing information. Define what you want to show, set it up and MMS will do the rest.

Automatic content rotation on the same monitor to increase your reach. Keep customers informed wherever they are in your center.

Keep your customers informed and improve their experience

Display relevant information and keep your customers informed in real-time, eliminating frustrations

Real time information like waiting lists, prices, scores from any lane and tournament standings—right where it's needed, always current.

High graphical quality that translates into attractive promotions and easy to read layouts for your customers.

Once they're in your center, how effectively you engage and communicate with customers is important for your success. From in-center marketing to pricing information, MMS delivers powerful real time content to monitors throughout your center, enhancing customer service for both open and league play customers—all while simplifying your center management.

Customer service and machine maintenance made easier

Imagine: your center is full and your customers are having fun. But suddenly a machine has a problem, your staff is busy and it takes too long to notify the technician.

Sometimes, that's all it takes for your reputation to take a hit and lose customers. But it doesn't have to be that way. Not with the Trouble Call System (TCS) from QubicaAMF.

We were first. And ours is still the very best

Introduced in 2003, and constantly refined since, TCS is bowling's first and only automated solution for customer service, technician support and management reporting. Infused with innovative QubicaAMF engineering, it's designed to make bowling life easier for everyone.

Easier for customers to enjoy the game

TCS reduces **their frustration**, instantly advising them if a machine problem happens, and keeping them posted so they can restart the second the technician is done.

Automatic reporting provides live updates through animated exciters on the overhead monitors. And, they can **report a problem right from the console.**

Easier for technicians to do their job

TCS automatically informs staff right when a problem occurs—and keeps them informed until it's solved, allowing them to focus on solutions.

Mobile access lets the front desk notify technicians on their wireless handset—anywhere in your center.

With **full control and communication**, they can acknowledge the call directly from their handset, even control basic functions such as recycling the machine.

Improved safety. To help protect the technician, TCS promptly advises bowlers when they have to stop, so they won't throw the ball while the machine is being repaired.

Works with every machine. TCS can be installed with machines supported by QubicaAMF scoring systems, including QubicaAMF/Qubica/AMF, Brunswick, Mendes, along with several others—even in mixed installations.

Easier for managers to oversee operations

TCS automatically keeps a detailed trouble call history with no extra effort required by you or your staff, allowing full visibility into machine performance.

Detailed and reliable. TCS keeps track of every issue that occurred—those reported directly by the machine, or manually entered by the front desk, technician or bowlers.

Complete statistics let you check all relevant metrics, observe trends, and identify issues before they become problems. You also have access to data for evaluating technician response times and performance.

Bowler Consoles

Put bowlers in touch with the best

BES X consoles design and functionality, truly take bowler interaction and on-lane customer experience to the next level.

Infused with high-tech engineering and designed to attract today's bowlers, they come with simple yet powerful interactive screens featuring our exclusive SuperTouch and EasyKey technologies.

They're also very rugged, take up little space and are designed to add so much to your bowlers' experience and your center's appeal.

Exclusive **NEW SuperTouch LCD Bowler Consoles**
SuperTouch gives a real new purpose to on-lane touch screen consoles, beyond score corrections and name inputs. They offer a sleek, super-modern look and feel, with a built-in camera, just like you'll find on the latest tablets and smartphones—and provide a user interface conceived for extreme ease of use. Along with access to innovations like the new YouToons, Facebook® GameConnect, Lane Chatter and Virtual Waiter, they also let bowlers review game statistics, individual standings, frame progression, and much more—all "live" and at their fingertips with a simple touch.

The attractive design, sophisticated functionality and simple user interface of the SuperTouch provides bowlers what they come to expect today and will dramatically improve the on-lane experience you provide to your customers.

Exclusive **NEW EasyKey Keyboard Consoles**
Clean, simple and effective, with nothing between your players and incredible bowling. That's what EasyKey keyboard consoles are all about. Their intuitive navigation ensures only relevant keys light up. Plus, they have a high-tech look and feel that makes anyone—pros or beginners—actually want to interact with the scoring system.

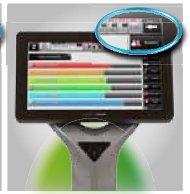

Exclusive **NEW LED Color Effects**
With the new LED Color Effects light feature, BES X consoles are capable of projecting over 16 million colors on the pedestal and surrounding floor, creating a fabulous effect in your center. They also provide a sophisticated way to help your players find their way to their lane, after check in, fast. You have to see it to believe it!

Lane - 2 consoles per pair of lanes

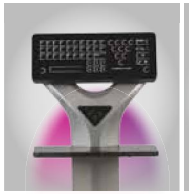

Pair - one console per pair of lanes

EasyKey

Twin - one console with 2 keyboards per pair of lanes

Pair - one console per pair of lanes

Lane - 2 consoles per pair of lanes

ON-LANE **REDEMPTION**

Driving your business, one ticket at a time

Redemption games are increasingly popular among today's youth and open play bowlers, and are shown to increase key areas of your business including party business and F&B sales, along with open play bowling.

The On-Lane Redemption system by QubicaAMF is designed to integrate with the BES X and Conqueror Pro Management System, to provide a complete, customizable solution for managing your bowling center redemption activity. It's a perfect complement to your existing redemption solution.

Total System Integration
To give you more revenue opportunities with fewer headaches, this system integrates with our Conqueror Pro management system, and can issue tickets linked to all bowling games or events managed by BES. It also ties into our Trouble Call System (TCS), advising technicians and the front desk when a problem occurs, or if tickets need to be reloaded.

Smart, Easy Operation
Our On-Lane Redemption system is well designed, fully automated and totally convenient. It holds 4,000 tickets, which means fewer visits from the front desk. And it's also equipped with an LED that shows operational status.

Full Payout Control with Detailed Reporting
Our On-Lane Redemption system also lets you set the equivalent value for tickets, and evaluate payout percentages versus revenue and much more. It puts you in control.

"We have seen a large increase in bowlers using On-Lane Redemption, then going directly into the game room to spend more time and money.
Adding On-Lane Redemption is one of the best decisions we have ever made!"
Scott Devers, Mike Aubly's Arrowhead Bowl, IN

Automation System

The QubicaAMF Automation Systems, interfaces and superior control software allow total center control via Conqueror Pro. From billiard lights to external signs, from automatic bumpers to glow lights and much more.

Automatic Bumper Interface
Have interfaced bumpers go up and down by player so a family can bowl together. Bumpers can be assigned to any player from the front desk or bowler console.

Auto-Adjustment Scoring Camera
A matrix camera with Automatic Image Recognition means superior pin detection, accuracy and reliability. Camera image auto-adjustment can be performed from the front desk, with hassle-free automatic switching to black light. Previous camera image can be viewed at front desk.

TV/Video Systems And Adjustments
Make TV/Video adjustments from the Conqueror Pro front desk, with lane-by-lane control of volume, color, brightness and contrast.

Sound Exciter Control
Control sound exciter adjustments for animation and games from the Conqueror Pro front desk, with lane-by-lane control of volume.

System Hardware

At QubicaAMF, we develop our own hardware for the systems we sell. Unlike other manufacturers, we have full control of our development and production process, for both hardware and software. This winning approach leads to improved reliability, stability and longevity for our products.

No Hard Drive
Our Bowler Entertainment System has no hard drive, instead we use state-of-the-art flash memory. This drastically improves reliability, as hard drives are one of the elements of scoring systems most frequently subject to failure.

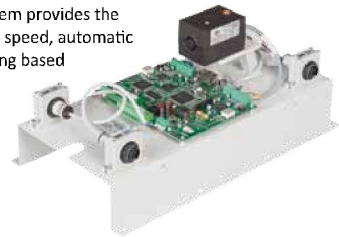

No Fan / No Moving Parts
Fans or moving parts may break sometimes. The superior technology of BES eliminates the need for fans and other moving parts on the electronic board. This translates into fewer parts that can break and increased reliability.

Power-Loss Protection
Scores store directly in the flash memory, further protected by backup battery. If power is lost you have no problems. Scoring data and information will be preserved, and the game can continue after power comes back.

Stand-Alone Operation
Should communication be lost with the front desk, scorers can be switched to stand-alone mode.

System Diagnostics Self-Test
On start-up, the system checks every device and, if it detects a problem, sends an alert.

Two Ball Sensors
This patented system provides the most accurate ball speed, automatic pinspotter triggering based on ball speed, and better displays an alert.

AccuVision

The only long-term display solution built exclusively for bowling centers

Offering top-of-class video conversion, commercial-grade AccuVision monitors are the smart way to give your bowling center that modern look customers expect, reduce costly downtime, and enjoy single-source convenience with QubicaAMF.

It's the best long-term solution for your center

Enjoy a better return on investment, more convenience and greater peace of mind thanks to:

Commercial-grade engineering
Ensures longer life, quicker repairs and less down time which increases center profitability.

A consistent appearance
A clean, elegant design from year-to-year eases replacement concerns.

Forward compatibility
With industry-standard display modes and integration with QubicaAMF scoring systems.

Easy exchange and repairs
We repair what we sell, stock commonly used parts, and offer rebuilds to limit your downtime.

NEW LED Technology
The latest technology for LCD displays. The 42" features full HD capability, is 40% lighter and 60% thinner than a traditional LCD. Both the 32" and 42" consume as much as 60% less power, offer a contrast ratio 10X higher, more saturated colors and provide a brighter, cleaner image. Now available in 47" and 55".

NEW HDMI Support
QubicaAMF conversion units use HDMI, the most popular audio/video connection type, supporting both sound and direct monitor control ('CEC') through the HDMI cable.

It's built exclusively for bowling centers

Legacy scoring system compatibility
You'll enjoy seamless implementation with the most popular Qubica, AMF and Brunswick systems.

End-to-end QubicaAMF convenience
You make just one call for quick and professional warranty and support requests.

An elegant, professional design
Unlike off-the-shelf consumer monitors.

Clean, safe and professional installation
—thanks to a dedicated enclosure for the video conversion unit.

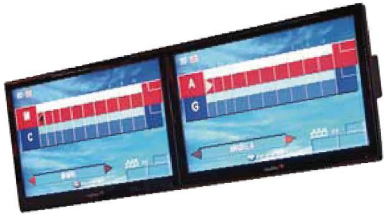

Legacy Program

QubicaAMF offers three smart options when upgrading to new monitors—one just right for your center, your vision, and your budget:

A Complete Upgrade Package
Get maximum entertainment value—and a great deal—by purchasing our stunning AccuVision monitors, video conversion kits and supporting brackets together.

Video Conversion Kit And Support Brackets
Keep your center from looking cluttered after purchasing your own monitors. Our Video Conversion Kit and Support Brackets[1] will keep your bowlers from being distracted by a "jungle" of overhead wires and hardware. Our special brackets and enclosures provide a clean display.

Video Conversion Kit Only
Buying your own monitors? Get our Video Conversion Kit by itself to ensure you'll get the utmost from your scoring system—including drink light and sound support, automated power on/off, plus enhanced TV control[2].

1 Support brackets are compatible with most brands of monitors.
2 Applicable only to scoring systems offering these features.

AccuVision monitors are not available in all markets, in which case products of equivalent quality and features will be available.
Dimensions and configurations may differ from those shown.

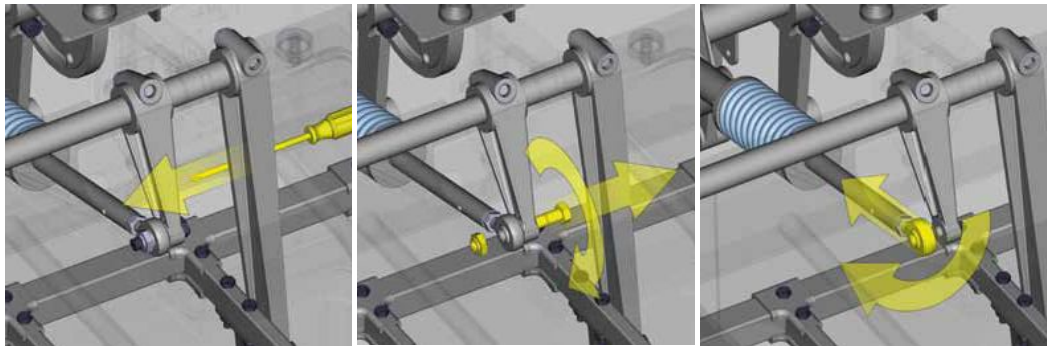

Pinspotters

Pinspotters do much more than their name implies. They impact the efficiency of your operation, set the pace of play, and drive the overall satisfaction of your bowlers.

So make sure you go with QubicaAMF.

We have a solution to meet your specific needs:

- XLi EDGE Pinspotter
- TMS Ten Pin String Pinspotter
- Pinspotter Upgrade Kits
- SmartGuard Safety System

Sample illustrations from the EDGE Video Training Tool showing the adjustment of the shuttle rod on the pinspotter.

Distributor with new EDGE Performance Cam

"The XLi EDGE pinspotters are much more reliable...we no longer use a contract mechanic, and have saved about $15,000 a year in parts and out of pocket labor expenses."
Billy Frederick, Managing Partner, Chalet Bowl & 26th St. Café Tacoma, Washington

"With the EDGE Performance Lift the access to the pinspotter is very open and it's a lot more comfortable to work on the machine."
Stan Anderson, Head Technician, Mountain Run Bowling Center Culpeper, Virginia

XLi EDGE

The only pinspotter designed to make your business easier

We've spoken with hundreds of technicians, proprietors and investors about today's bowling business and identified the most prevalent market problems around pinspotters—from challenges related to training staff to increasing costs of older machines to the importance of a better experience to keep players coming back.

In response, we've developed the XLi EDGE. The most advanced pinspotter ever and the only pinspotter designed to make your business easier.

Easier for You

because it's the most cost effective pinspotter to operate, so you have more money to focus on marketing your business or add to your bottom line.

- *Exclusive* **Patented EDGE Performance Lift and Cam**
  Delivers the best Frames Per Stop (FPS) performance in the industry, requiring less staff to operate, so you save money.
- *Exclusive* **Durabin**
  Unlike other machines—stores pins so they don't continuously cycle through the machine. You save money because pins last longer.
- *Exclusive* **Energy-Efficient Electronics and Automatic Shutdown**
  Conserves electricity, keeping your operating costs down so you save money.
- *Exclusive* **Fewer Wear Parts**
  You spend less annually on replacement parts to maintain the machines.
- *Exclusive* **Safety First Ball Detector** (non-EU countries only)
  Shuts down the machine if a person tries to enter from the lane side—for a safer environment.

Easier for Your Staff

because its' simple to learn, to operate and to maintain.

- *Exclusive* **EDGE Video Training Tool**
  Makes learning the critical machine adjustments easy for technicians—you won't find it anywhere else.
- *Exclusive* **Fewest Critical Adjustments**
  There are fewer things to learn and to maintain so staff time can be used for other areas of the business.
- *Exclusive* **Open & Modular Design**
  The XLi EDGE is open and easy to work on—making it efficient for technicians to do their job.
- *Exclusive* **Keeps Staff Informed**[1]
  Staff is automatically notified of any interruption in bowler play and can respond quickly. With system generated reporting, you have accurate data to improve maintenance effectiveness and lower operating costs.

Easier for Your Customers

because they have a better experience in your center and are more likely to return.

- *Exclusive* **Quietest Operation**
  Your customers don't hear the machines running, making for a more pleasant environment in your center.
- *Exclusive* **Keeps Customers Informed**[1]
  If a problem occurs during play, customers are updated on the scoring monitor and notified when it's okay to bowl again—making for a better experience.
- *Exclusive* **Unmatched Reliability**
  Your customers are not kept waiting for the pinspotter to set pins or for their balls to be returned.

1 When used in conjunction with QubicaAMF scoring and management systems.

TMS PINSPOTTERS

The only string pinspotter based on today's technology

String pinspotters are a great alternative to traditional free-fall pinspotters for entertainment based bowling facilities. Yet those operations with string machines risk that tangles and poor pin action hinder the bowler's experience.

Fortunately, there's the TMS String Pinspotter from QubicaAMF, offering—

A better bowling experience

—thanks to an innovative design based on today's technology. The bowling experience on a TMS pinspotter is better than any other string pinspotter.

Exclusive tangle reducer pin attachment system
This new advancement reduces the frequency of tangles by over 500% compared to other string machines.

Exclusive low string resistance pin fall detection
The pin fall detection system results in less restriction on string movement for pin action that is much closer to that of a traditional free-fall pinspotter.

Exclusive dual-action pin detangle system
The most effective of its kind available, it combines two separate actions to resolve pin tangles.

Exclusive Full TCS integration
Used with QubicaAMF scoring and management systems, the TMS notifies technicians automatically and keeps bowlers informed through the TCS (Trouble Call System).

Easier operation

Learning, operating and maintaining the TMS String Pinspotter is far easier than with other string pinspotters on the market.

Exclusive Modern user interface
Your technicians will have full control through a keypad and LCD display at the front of the machine pair.

Exclusive Integrated diagnostics
The TMS control box monitors all functions of the pinspotter for quick troubleshooting and minimal downtime.

Fewer mechanical adjustments
—mean less time spent on maintenance.

Better reliability

Parts last longer. Maintenance costs are lower. And you'll have more money to invest in your business.

Exclusive 100% solid state sensors and electronics
Sensors and electronic components last longer so you save money in replacement parts.

Exclusive Variable speed and torque drive
—optimizes machine efficiency and minimizes wear on machine components, so they last longer.

Exclusive Premium-quality components and construction
The TMS String Pinspotter is made with heavy-gauge components, a top-quality drive system, and state-of-the-art electronics. Built better than other string pinspotters to handle higher lineage as your business grows.

Variable speed and torque drive system

Tangle reducer pin attachment system

EDGE Pinspotter Upgrade

Boost your pinspotter reliability by thousands of frames-per-stop

Your pinspotters can make or break your operation. But do pin-feed issues, pin pile-ups, double-shuttling or pin jams have your staff running ragged—instead of focusing on other areas of your business?

An EDGE Upgrade may be the answer. It's often the best way to eliminate pin-handling problems and save maintenance costs, while keeping both your bowlers and technicians happier with—

Unprecedented Performance Reliability

EDGE Upgrades eliminate virtually all pin-handling and pin-feed issues, giving your staff more time to add value to other areas of your business.

Patented EDGE Performance Lift
This innovation puts pins in a perfect orientation—for far fewer pile-ups.

EDGE Cam for Durabin
It's designed to work with the Durabin pin storage system to deliver optimal placement of pins in the Durabin pin pockets for fewer pin pile-ups.

EDGE Shuttle Rod
Its strong spring improves shuttle motion, helping to prevent double-shuttling and pin jams.

Easier and Safer Operation and Maintenance

With fewer adjustments, better machine access and quieter operation, the EDGE Upgrade can make maintenance more efficient.

Fewer Adjustments
The new EDGE lift eliminates seven adjustments required with the steel pinwheel system.

Easier Access
The EDGE Performance Lift has an open, modular design for better access to the rear and pit areas.

Ladder with Handrails
This great feature makes it safer and easier for your technicians to access the top of the machines.

Quieter Operation
The EDGE Performance Lift is 7 to 8 dB(A) quieter on average than the steel pinwheel system.

Longer Pin Life

EDGE Upgrades eliminate areas where pin damage can occur with the pinwheel and steel bin system. Pins last longer. And you save money.

No Metal Parts
All the metal parts associated with the old steel pinwheel pin handling system that could damage the pins are eliminated.

Durabin with Optical Switch
This one-piece bin has no metal parts to damage pins. Plus, unlike a mechanical one, the optical switch does not contact and wear pin heads.

Pinspotter Upgrades

Eliminate the electrical problems with your older pinspotters

If you're experiencing electrical problems on older model pinspotters, that means more downtime, more maintenance and, most impactful to your business, more dissatisfied bowlers. That's why you should consider an XLi Upgrade from QubicaAMF.

You and your technicians will enjoy—

Greater Electrical Reliability

No more struggling with pinspotter downtime and wasting resources troubleshooting electrical issues as a result of old and unreliable wiring and electrical components.

Electronics based on today's technology
The XLi Upgrade replaces all of the old electronics on existing pinspotters—including wiring, solenoids, motors, control chassis and more.

Back-end motor rotation (70 XLi Upgrade only)
To keep pins from falling onto and damaging the motor, we rotate it 90 degrees.

Back-end motor overload protection
After an XLi Upgrade, the control chassis constantly monitors the back-end motor current, and will shut down the pinspotter if a jam occurs that could damage the motor.

Easier Operation and Maintenance

With modern machine control and the elimination of six mechanical adjustments, your pinspotters will be easier for technicians to use, saving time and money.

XLi machine control with LCD display
Your technicians will have easier access to the machine and its settings through a keypad and LCD display at the rear of the machine pair, and from the front with a handheld unit.

Integrated diagnostics
The new XLi control chassis monitors major machine functions and displays any issues or warnings on the LCD display, which saves troubleshooting time.

Table and sweep encoders
Mechanical cams and switches are replaced with encoders that allow the table and sweep position and motion to be controlled by the XLi chassis.

Improved Pinspotter Safety
Helps to make the working environment safer for your staff.

Emergency stops
These are added to the front and rear of each pair of pinspotters to give technicians a quick and safe way to stop them in the case of emergency.

Safety-first ball detector
The XLi ball detector will shut down the pinspotter if someone tries to enter the machine from the front.

Durabin Upgrade Kit
Simplify your pinspotter by eliminating all of the parts that go along with your older bin assemblies. The Durabin is a one-piece bin solution that reduces maintenance and is easier on pins.

Gripper Positive Ball Lift Upgrade Kit
Tired of fighting ball return issues with your old ball return system? The Gripper can help.

It is our most reliable ball return system and helps ensure your customers won't be kept waiting for their balls to come back, even in the heaviest of lane oil conditions.

Step Ladder Into Machine

SmartGuard™ Safety System

Pinspotter compliance made easy

For XLi EDGE pinspotters sold in the European Union, the state-of-the-art SmartGuard pinspotter safety system is required and included. The SmartGuard Safety System is pinspotter compliance made easy. It is easy for you, easy for your staff and easy for your customers. Here's why:

Easy For You

Meets All CE Requirements
You can rest assured the equipment is safe and in compliance with the European Union regulations.

Easy for Your Staff

Exclusive **Most Transparent Guarding**
The technician can safely view all parts of the machine operation and see what is happening.

Exclusive **Patented Single Level Platform**
Technician has unobstructed, safe access, on top of the machines and room to walk and work.

Exclusive **LED Status Indicators**
The technician can see at a glimpse if there is a problem with any interlock guard sensors, and if so, which sensors—making for quick and easy diagnostics.

Interlocked Guarding at all Key Access Areas
The technician can quickly and safely access all key pinspotter areas—no tools required.

Easy for Your Customers

Exclusive **Pin Retrieval Tool**
It is the only pinspotter safety system where the most common pinspotter issues can safely be resolved without machine shut-down that would interrupt bowler play.

Availability:

- On new XLi EDGE Pinspotters
- As an upgrade to 82-90XL Pinspotters
- As an upgrade to 82-70 Pinspotters

"Working with the SmartGuard system on our pinspotters has been great. It is easy to use and very reliable."

Mr. Jens, Technician, Odense Bowling Center, Denmark

SPL Lanes with Glow Tracks

Lanes

Put your bowlers - and your business - on the path to greatness

Install QubicaAMF lanes and lane products and great things start to happen:

Your center will look bright and inviting. Casual bowlers will rave. Competitive bowlers will love the optimal ball reaction, increased pin falls and higher scores. Maintenance headaches and costs will drop. What's more, you'll have peace of mind and more money to grow your business.

QubicaAMF has been making the most durable synthetic lanes for over four decades, with over 60,000 installed worldwide. And we deliver the essentials you need to prosper.

- SPL II anes™
- MAD Lanes™
- DuraBowl Bumpers
- Radaray Foul Detectors
- NEW EZ Touch Lane Machine
- Summit S-Series Lane Machine

SPL Lanes

SPL II

The world's most durable high performance bowling lane system

Old wooden lanes and first generation synthetic lanes present a myriad of problems for bowling centers. First, wood lanes may look bad, with feathering, oil soaking, ball dents, broken boards and more. Between re-surfacing, coating and patching, maintenance costs soar. Plus, as they become thinner they lose their structural integrity. First generation synthetic lanes may look bad because the protective layer is worn out, scoring performance may be poor, and maintenance costs may be high because of cracked and worn panels needing replacement.

SPL II lanes from QubicaAMF solve many of today's most critical bowling center needs, standing apart as—

The most durable lane system

SPL II lanes last longer and cost less to own, leaving you with more money to drive your business.

Exclusive NEW phenolic material formulation
Unique to SPL II, it provides better impact resistance and less lane panel flexing so panels are more durable.

Exclusive overlap pin deck
The pin deck can't shift position over time and become damaged from balls and pins.

Exclusive Lane Replacement Process
The QubicaAMF replacement process maximizes structural integrity in the worst areas of the old lane, and provides the best surface on which to install new synthetic lanes.

Best panel configuration
With SPL II, there are no joints in the ball impact zone or bowler slide area—for a longer lasting, more trouble-free lane.

The best surface for scoring

Because oil patterns last longer with SPL II, bowling conditions are more consistent, leading to higher scores, happier bowlers and more business.

Exclusive Highest Surface Energy
An exclusive Brush Finish holds oil patterns better than anything else on the market.

Highest friction lane surface
The higher friction lane surface of SPL II means balls react better leading to better scores and more satisfied players.

UltraSlide Textured Approach
The surface roughness of UltraSlide makes for better sliding and fewer issues with sticky approaches.

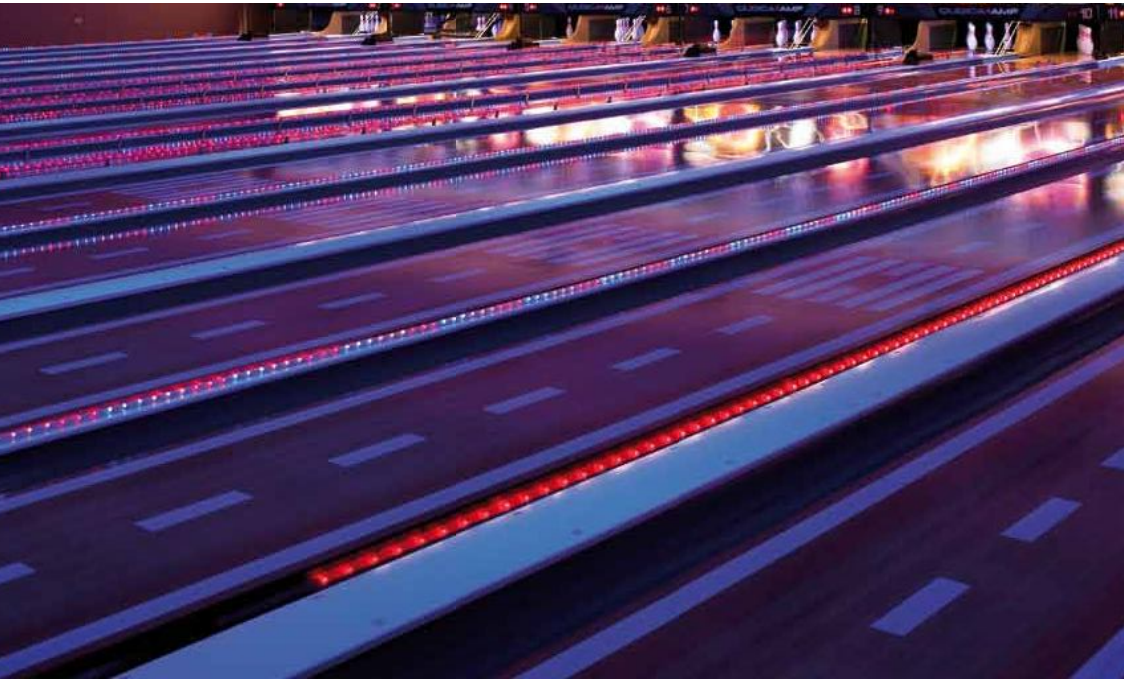

The best looking synthetic lane available

The rich authentic maple wood look and sleek Glow Track effect of SPL II Lanes will make your center more attractive to today's consumers.

Warm maple wood appearance
Mimicking real wood, SPL II lanes give your whole center a clean, rich, high-end look.

Glow Track effect
Creates visual interest for casual bowlers, provides guidance to help them bowl better, and enhances lane lighting effects.

MAD Lanes

MAD LANES
The coolest lanes on earth

Are you fighting lane maintenance issues? Are you looking for cool ways to grow your family and open play business—and ways to keep existing open play customers excited and coming back for more?

If so, take a look at MAD Lanes. When it comes to glow bowling, the lanes you choose can create major excitement, attracting and keeping players coming back for more fun.

Only MAD Lanes offer:

Best Visual Impact

Vibrant Glow Designs
Visually exciting on-lane bowling experiences that families and casual bowlers will love.

Glow Patterns on Approach
The glow patterns continue onto the approach for added excitement.

Two Glow Patterns to Choose
You can choose from two exciting patterns, or mix them in your center for added uniqueness and excitement.

Exceptional Durability

No Joint In Ball Impact Zone
The first joint in a MAD lane is out of the normal ball impact zone, minimizing the chance of joint separation.

Exclusive Overlap Pin Deck
MAD lanes use an exclusive overlap pin deck design. This prevents shifting and lane panel damage.

Optimal Installation Process
We always replace the worn ball impact section of your old lane with a new solid underlayment, ensuring the longevity of the lane installation.

Great Performance

Distinguishable Board Line Pattern
The distinguishable board lines on MAD lanes help your bowlers aim and target better so they knock down more pins.

Textured Approach
The MAD textured approach replicates closely the characteristics of a real wooden approach, reducing "sticking" and ensuring a better experience for your bowlers.

Seamless Bowler Slide Area
The MAD textured approach does not have any seams in the bowler slide area, so there is nothing to disrupt or trip the bowler, or show unsightly wear over time.

Lane Accessories

Durabowl Bumpers

Ideal for kids, those with limited abilities, or players who just want to have fun. Our DuraBowl Bumpers haven proven themselves as the industry standard for over a decade.

They're built with heavy-gauge steel uprights and base. Plus, their reliable pneumatic auto-opening mechanism is virtually maintenance-free. They take fun and functionality to the next level.

Outstanding Durability
High-strength DuraBowl Bumper rails last longer and provide a livelier bounce than others on the market. That means more action for your bowlers and a smarter investment for you.

Bowler Activated Response
DuraBowl Bumpers can be activated by lane from the front desk, or by the bowler from the scoring console. So it's easy to give parties with players of different skill levels the bumper control flexibility they need.

Color Selection
DuraBowl Bumper rails and gutters come in brown, blue or gray to compliment your existing décor. They not only add functionality to your lanes, but style to your venue.

gray

brown

Xtreme Bumper Light Upgrade
Thrill your bowlers and add life to open play with this colorful enhancement. These lights are not only super-durable and easy to maintain, but work with the bumpers up or down.

Radaray Foul Detectors

QubicaAMF's Radaray Plus and Radaray XLi are the world's most trouble-free, cost-effective foul detectors. Both Radaray models are low power users, so they save you money.

And both have the features you want and need:

- Install easily on top of the approach and align quickly.
- The Radaray XLi is designed specifically to work with XLi pinspotters. The Radaray Plus is designed to work with all other pinspotter machines.
- Unit covers include LED foul indicators.
- Not sensitive to ambient light or dust particles, eliminating false triggers.
- Virtually maintenance-free.

Radaray plus foul detector and reflector

Xtreme Bumper Lights

EZ TOUCH

The smartest choice for centers of 16 lanes or less

Do you own or manage a smaller center and find yourself doing the lanes by hand? Perhaps you use outdated equipment that doesn't clean properly, or apply enough oil for today's bowling balls?

Now there's a better choice—EZ Touch from QubicaAMF.

Easiest to learn and operate

EZ Touch is super easy to learn and run. So you won't have to spend money on a dedicated lane maintenance technician or head mechanic.

A NEW touch interface makes the machine incredibly simple to operate—for any skill level.

Preprogramming eliminates the time and trouble of changing lane oil patterns. You just push a button.

A lightweight design. EZ Touch is the lightest machine on the market today. Anyone can maneuver and lift it.

Far less expensive to purchase and maintain

EZ Touch is a very economical solution with a low total cost of ownership. And it also saves labor costs by automating what you might be doing by hand or less efficiently now.

Low purchase price. The nearest competitor's machine costs 50% more.

No installation is required. So there are no upfront fees.

No cleaning cloth is required, saving you thousands of dollars over the years.

Fewer adjustments and fewer parts mean less maintenance.

All-in-one convenience

EZ Touch has everything you need to take care of your lanes—and all types of bowlers. It protects one of your biggest investments as well as machines costing three times as much.

Patterns for any bowler. EZ Touch lets you condition your lanes for recreational, league and tournament players. It also has a clean only program.

High output allows EZ Touch to apply over 100 units (30 ml) for maximum lane protection under the most demanding conditions.

Multiple run capabilities let this versatile machine lay down up to four coats of oil for superior control and lane protection.

High speed. It only takes a minute for EZ Touch to clean and oil a lane.

High scoring. EZ Touch is preprogrammed with the highest scoring USBC/WTBA legal programs available.

And the best part? EZ Touch is guaranteed by QubicaAMF, the market leader. So you know you'll be getting a machine that will last for years, and keep your lanes in the best possible shape.

SUMMIT S-SERIES

Fast. Reliable. Economical. Consistent.

The Summit S-Series can accurately apply more than 100 units of conditioner per lane in less than two minutes. No longer will you have to condition your lanes twice a day.

The all variable spray system will clean your lanes faster and better, no matter how much oil is on the lanes. And, the patented conditioning technology offers a wide variety of conditioning patterns to please every type of bowler. The bottom-line?

The Summit S-Series makes your cleaning and conditioning easier, faster and much more efficient.

Black Options Ball Returns with holding Smart Balls

Front End Products

Give your players an unforgettable experience—again and again!

When your bowlers step onto the approach, that experience leaves a lasting impression affecting the long-term success of your business.

So let QubicaAMF make it memorable.

QubicaAMF front end products transform the entire atmosphere of your center, bringing excitement, convenience and satisfaction to every customer contact point. What's more, they're proven performers, with modular designs that ensure easy upgrades—and a smart long-term investment.

BALL RETURNS

Keep filling the racks—and thrilling your bowlers

High-performance. Low-maintenance. Top reliability. And more than a little style. The industry standard for good reason, our Options and Profile Ball Returns keeps things moving on the front end—and keep your mechanics from wringing their hands.

Patented Smartpath™ Distribution
This innovative distribution system guarantees alternate left/right ball placement for bowler convenience. You'll see far less wasted effort on the approach.

Durable Power
QubicaAMF ball returns are built tough and engineered to be strong, featuring heavy-duty solid state motors capable of lifting five balls at a time. They'll keep pace with even your busiest periods of play.

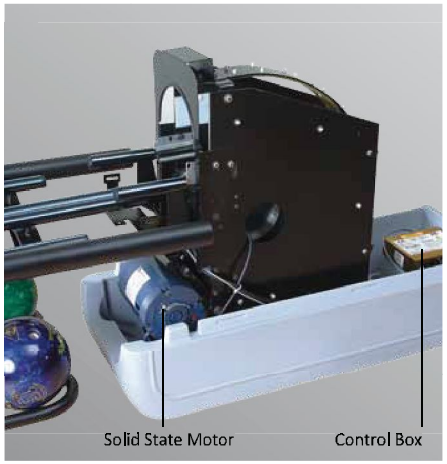

High-Capacity Design
The sleek rack on both of these ball returns provides storage for up to 11 balls. Plus, an optional lower ball storage rack lets you store ten more.

Easy-to-Remove Hoods
These covers come off quickly, providing no-hassle access to the power-lift for maintenance.

Choice of Colors
—available with a black hood, or a glow-in-the-dark gray hood and glow rails. Who said you can't have strength and style?

What makes Options ball returns different?

- They're the only return with the motor and control box above lane level for easy access and maintenance.
- Ergonomically ideal, their ball rack height is five inches above the industry standard, making them well suited for bowlers of all ages

Solid State Motor

Control Box

Ball Return Upgrades

Is your ball lift working fine and you just want to change out your old hood and rack—for a more updated look in your center? We have your solution.

Postcard Masking Unit

Make an impression

Are you looking to transform the look of your center? Take a look at MASQ units from QubicaAMF.

Our broad collection includes vibrant upper and lower-tier masking, bright luminescent panels, and an optional back-light system to enhance the graphics in a non-Xtreme environment.

Choose from a host of exciting contemporary designs. Or create your own. Either way, your customers are sure to rave.

Tilt-Open Design
To make sure the décor never disrupts business, MASQ's lower frame tilts open and allows easy access to your pinspotter equipment.

Helpful Bowler Information
Displays first-ball and second-ball status on long-life LEDs. Lane numbers are also shown in an easy-to-read format.
Vibrant Glow
All our standard MASQ graphic panels glow under a black light.

Easy Installation
From upper and lower-tier panels to the optional back-light kit, MASQ installs easily. So you can transform the entire feel of your center overnight.

Customization
Want to differentiate your venue with your own special flair? No problem. QubicaAMF can print custom MASQ designs using your artwork.

VIDEO MASQ

Bring your center to life

Today's customers are immersed in a world of feature films, live sporting events, the latest video games. Now you can bring that same exciting experience into your center with the Video MASQ System from QubicaAMF.

Superior to standard systems, these high-definition displays enhance image clarity and vividness. Flexible operation lets you deploy only the screens you want. Plus, the system is designed to fully integrate with the MASQ unit and totally exceed your expectations.

A Streamlined, Fully Integrated Design
The Video MASQ projector screen is custom designed to integrate with the MASQ unit, eliminating complexity and guesswork. Video MASQ screens are motorized and are raised and lowered using a control switch behind the front desk.

16:9 Aspect Ratio
Our Video MASQ screens are 16:9 high definition format, ideal for watching widescreen high-definition video without unsightly blank bars above and below the image.

Enhanced Clarity
QubicaAMF Video MASQ screens incorporate a special "high-gain" coating that works with the projector to deliver eye-opening clarity.

Smooth Screen-To-Screen Transition
There's only a minimal 2.75" black border between consecutive Video MASQ screens. So when your customers look from lane to lane, all they'll see is one span of vibrant video.

Ceiling Mountable Video MASQ Screens
For those desiring bring the excitement of video and media to their center without purchasing the complete MASQ unit with video screen integrated, we offer the video MASQ screen in a ceiling mountable version.

Commercial-Grade High-Definition Projectors
We offer several styles of projectors to choose from. All of our projectors are commercial grade, high definition projectors that will provide the kind of high-impact high-def entertainment your customers demand.

Light & Sound Systems

Increase the entertainment experience in your center

QubicaAMF sets the standard in light and sound systems for the bowling industry by delivering innovative designs that help you create dynamic environments within your center and provide your customers with a unique bowling experience.

New Designs
QubicaAMF works with you to create a light and sound package specific to your business and the environment you want to create. We keep current with the latest in lighting and sound technology products, so we can offer you the state-of-the-art.

Design Integration With Existing Systems
If you have existing light and sound equipment in your center that you want to continue to use, and have integrated with newer equipment we can help. In addition, we can usually repair older light and sound products that are broken or not working properly.

Ease Of Use
The systems we design are user friendly and programmable. Managers can create (and password protect) different "shows" to run at different times; like evening and weekend "shows" that run in the manager's absence.

Lifestyle Triangle Table with Triangle Top

Lifestyle

Give your bowlers style and comfort they'll come back for

Our Lifestyle line of furniture offers the best of all worlds: incredible comfort and functionality for your bowlers; supreme durability for the businessperson in you; plus attractive Eco-smart designs with environmentally friendly finishes.

Cool, Contemporary Styling
Our Lifestyle line is designed for bowling centers and entertainment facilities that want a warmer, higher-end look and feel than traditional seating. Your customers will appreciate the difference.

Excellent Durability
We're talking solid wood veneer seating, plus heavy-gauge aluminum and steel frames. Powder coat finishes. Stain-resistant upholstery with high-density commercial-grade materials for longevity. We're talking more for your money.

Lasting Comfort
Lifestyle seat backs are a full 15.5" tall with contoured bottoms for superior comfort. And upholstered pieces offer thick foam padding for support. Your customers will want to relax and stay awhile.

Rich Color Selection
These sofas and stools come in a palette of eye-catching colors, while seating and tabletops are available in rich mahogany or crisp maple to go with your existing décor, or give your place a sophisticated new look.

"QubicaAMF furniture is designed for a bowling center by a bowling company. It's tested for this environment, and there is someone there to back it up."

Highway66 with Wood Pattern lanes

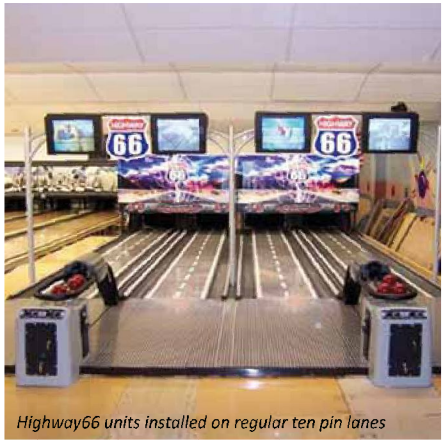

Mini-Bowling

Our scaled down solution can really punch up your profits

If you're looking to bring an exciting new revenue stream to your venue without adding lots of space, maintenance and manpower, mini-bowling is just the ticket.

And QubicaAMF is the way to go.

Combining the allure of ten-pin play with the innovation, advanced technology and design QubicaAMF is known for, our Highway 66 attraction is a magnet for people and parties. All in all, a reduced footprint, swift ROI and variety of automated payment options make this small system a big money maker modernize your existing bowling lanes with Highway 66. It's fast and easy.

Highway66 units installed on regular ten pin lanes

Highway66 unit installed on MSC Cruise Ship

Mini-Bowling

Put your center on the road to bigger profits

More than a game, this mini-attraction offers mega benefits like fast games and revenues. With no special shoes, special equipment or dedicated technician needed, you just set it up and wait for the crowds of happy customers.

Highway66 stands atop thousands of R&D hours, delivers trouble-free operation with a state-of-the art string pinspotter and synthetic lanes, and reflects our 15 years in the marketplace with 3,000+ lanes running worldwide.

On Lane Advertising
Supercharge your revenues by promoting your center or other local businesses through colorful onscreen pop-up marketing. A real money-maker.

Glow in the Dark Lanes
Light up your center and let the party begin with glowing lanes, pins and balls.

Multiple Payment Options
Step away and watch the profits roll in with hands-free payment methods that include coin or front desk control, a bill acceptor, debit card interface, or ticket redemption.

Exciting Extras
Outfir your Highway66 setup LCD monitors, electric bumpers, plus coordinated furniture and signage. QubicaAMF has everything you need to make this solution a success.

Two Exciting Games:

Tenpin Tour Game
Thrill your players with this highway-based game. It offers a series of tricky stops and bonuses adding to the challenge of traditional tenpin play. And it'll keep them coming back for more.

Turkey Shoot
This very fast walk-up game is irresistible, and well-suited to high-traffic venues. High profits too. Players get to throw three to five balls at a full set of pins and compete for a mega prize.

Smart Ball™

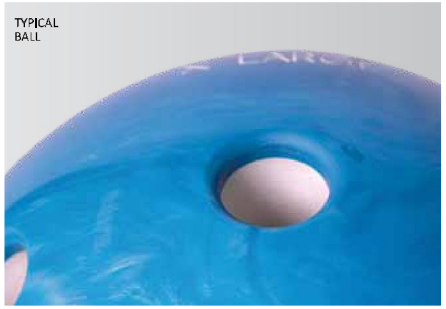

Smart Ball System With Comfort Fit Grip™
The world's most comfortable house ball system

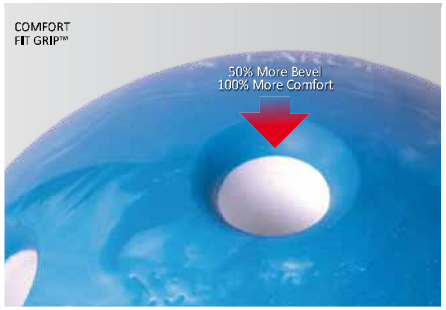

The third biggest reason recreational bowlers stop bowling is due to broken nails, blisters and fatigue. This could spoil any bowler's fun leaving you short a game or two and possibly hinder repeat business.

Designed to speed ball selection, increase turnover and revenue, the Smart Ball System includes color coordinated balls with the weights engraved on both sides, a fitting desk chart and the exclusive fitting ball with stand.

QubicaAMF's patent pending, exclusive bevel is 50% larger than competitors. This speeds selection, increases comfort and reduces hand fatigue-making the bowler experience and accuracy even better. Maybe they'll stay and bowl an extra game or two!

1. Get Fitted...
2. Select your ball...
3. ...and you're on the lanes!

Rental Shoes

Put your bowlers in our comfortable rental shoes and watch them bowl longer

Your bowlers will appreciate our rental shoes for their comfort, quality, and style. You'll like the value and versatility. All of our rental shoes have rugged 360 genuine Goodyear welt construction, heavy-duty glow laces and glow eyelets, and a padded collar.

For better inventory control and flexibility, all our rental shoes are prominently marked on the heel with both men's and women's sizes for easier substitution by staff.

PREMIUM

Available in Men's sizes 5 - 18 & Women's sizes 5 - 12.
1 year warranty.

VELCRO®

- High grade rubber ensures less marking
- Consistent slide

GOODYEAR WELT:
- Genuine Goodyear welt
- Shoe industry standard
- 360° stitched & glued

SECURITY DEVICE:
- Standard on all Premium shoes – works with Sensomatic® door sensor

AMFlite II

The standard by which all pins are judged

AMFlite II pins are the industry leader in quality, scoring and durability due to our unique manufacturing process.

Our lock-in nylon base, which set the industry standard, stays in place for the life of the pin and reduces pin sliding.

AMFlite II Pins are made in the USA from the finest hard maple lumber and stored in a special predryer before kiln drying in-house, for a more durable resilient core.

Compression Molded Surlyn provides the use of a stiffer resin. This allows a thinner, more uniform coating and a larger core size, which increases neck strength and results in better scoring and fewer neck fractures.

Customized triple-application topcoat process offers better performance in all machines and a longer life with improved appearance.

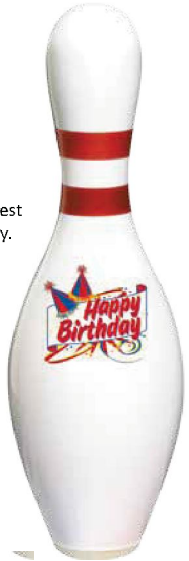

Small weight control holes provide pin consistency, resulting in consistently higher scores.

The AMFlite one year or 5,000 game warranty guarantees complete customer satisfaction.

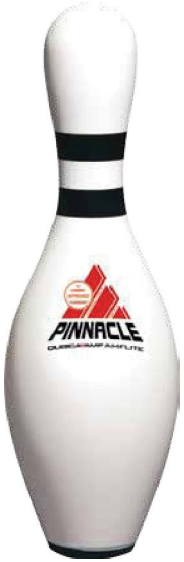

Birthday Pins

Birthday bowling is one of the fastest growing promotions in the industry. Present the guest of honor with a special Birthday Pin from QubicaAMF, and turn today's young bowlers into tomorrow's customers. Our all new multi-color birthday pin is sure to excite. Or, choose our entry level birthday pin. Made from a refurbished core and recoated in Surlyn with a one-color logo, we have a pin to fit every price range.

Pinnacle

Engineered based upon the industry's best-selling pin, the AMFLite II, and then enhanced with a 50 percent increase in Surlyn thickness in the ball impact area to reduce core compression and extend pin life. The pin features a specially formulated lock-in, black base to reduce pin sliding and is manufactured from clear, straight grain, white maple. The AMFLite Pinnacle comes with a two-year or 10,000 game warranty.
